OVERVIEW

The attorneys at Hermes, Netburn, O'Connor, & Spearing, P.C. have decades of experience in a broad range of civil litigation including business disputes, complex tort and products liability cases, automobile liability, premises liability, insurance coverage and defense litigation, reinsurance, environmental litigation and construction litigation.

We regularly try cases in various state and federal courts, arbitrate and mediate cases in a variety of forums and handle appeals at all levels of the appellate process.

Our approach to litigation matters focuses on the early, precise identification and execution of work necessary to develop and prepare a case for early disposition by motion, settlement or, where necessary, trial. We tailor our efforts to the goals articulated by our clients, whether it is the early settlement of a case, resolution of an important legal issue or the protection of other interests.

Our precise and client-oriented case evaluation strategy enables us to deliberately commit legal resources that are appropriate to the size and importance of the case. The size of our firm allows us to handle both large, multi-year cases which involve copious documents and witnesses, as well as minor cases that involve smart and efficient resource management. Whatever the type of case or particular client goals, our attorneys bring to the task their skill, energy, enthusiasm and commitment to efficient and cost-effective client service. We invite you to learn more about our various litigation practices.
